

## WHAT 5Q DELIVERS

Client-centric IT management services to real estate and alternative investment companies. Leveraging decades of industry-specific expertise in business processes and technology, we help our clients maximize efficiency within their technology systems while remaining secure and compliant.

## OUR SERVICES

We provide a full spectrum of solutions from CIO level leadership and private cloud management to help desk support and onsite IT operations – managing as much or as little of a company’s technology operations as needed.

### LEADERSHIP SERVICES

For clients who do not have an experienced CIO/CTO, 5Q brings deep real estate technology expertise to our clients as an ongoing member of their management team

### MANAGED SERVICES

We take on the burden of IT operations including cloud migration, applications hosting, network monitoring, server management and maintenance as well as end user support.

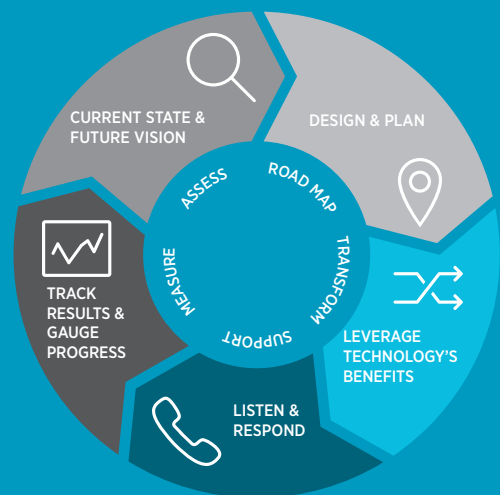

### PROFESSIONAL SERVICES

We provide turnkey project execution to ensure that client solutions are delivered on time and on budget. We have deep expertise in ALL CRE applications

## HOW WE DO IT

- Conduct thorough assessment of the technology environment, guided by our s.m.A.R.T. Cycle Methodology.
- Calculate 5Q:IQ that rates and benchmarks the performance of the technology environment. A higher 5Q:IQ elevates your technology and processes to perform at a higher level and generates greater results.
- Provide solutions roadmap for improving that 5Q:IQ score and transforming your environment into one that is more intelligent, secure, efficient and effective.

### ABOUT 5Q PARTNERS

Based in Atlanta and Dallas, the company’s team of operators and consultants have established their careers in industry-specific business processes and technology solutions. 5Q Partners understands the intricacies and inner workings of real estate and alternative investment’s legacy technology systems. We provide a full spectrum of IT leadership, operations and solutions consulting to owners, sponsors, managers, developers and brokers in the commercial real estate industry.

REAL. TECH. EXPERTS.
