

Envision YOUR FUTURE.

CONSULTING SERVICES OVERVIEW

EBUSINESS STRATEGIES is a strategic consulting services firm providing Corporate Real Estate and Workplace Management services. We help our clients develop and articulate an enterprise-wide facilities strategy, standardize business practices, and select, align, and implement technology solutions. We bring a unique blend of business, process and industry, and change management expertise to each of our projects. Our services provide decision-makers with efficient access to the critical data that supports strategic and tactical decisions. We firmly believe that a successful Corporate Real Estate organization must be focused on an intelligent business strategy that addresses the organization's true business requirements. EBUSINESS STRATEGIES delivers on leading practices in support of Corporate Real Estate and Workplace Management services.

We help our clients with:

- Strategic Organization Initiatives
- Business Process Optimization
- Technology Selection, Alignment, and Implementation.

Our clients receive value as we:

- Streamline and Standardize their Business Processes and Systems
- Implement Leading Practices
- Significantly Reduce Overall Operating Costs.

Founded in 2000 and headquartered in Houston, Texas, our global clients span industries including finance, oil and gas, telecommunications, retail, technology, and manufacturing.

EBUSINESS STRATEGIES Advantages

- **Business Transformation Leadership** – our structured change management practice drives success in strategic, organizational, and operational business transformations.
- **Industry Based Consulting Expertise** – bridging the business process and technology gap – a unique and necessary partner skillset.
- **Unique e³ Implementation Methodology** – decreases time to value by reducing the implementation timeframe while providing interactive client participation through the entire process.
- **Library of Industry Leading Practices** – includes 130+ processes and allows clients to meet time frames at a lower cost. Clients have seen annual ROI's as high as 35%-45%.
- **Full Range of Services** – strategic planning, requirements definition, implementation, managed services, technology audits, and roadmap planning.
