

AQUANOMIX

Data-driven insights to improve your cooling system efficiency and manage risk.

Aquanomix delivers **CLARITY. CONTROL. COMPLIANCE.**

CLARITY

Our benchmarking software delivers full transparency of water quality and energy usage, shining a light on any inefficiencies or potential risks.

CONTROL

You have the measurement tools needed to fully optimize your cooling system, make better business decisions and lower operating costs.

COMPLIANCE

You may add LEED® points, prevent unplanned downtime and minimize the risk of Legionella, all while ensuring regulatory compliance.

What's threatening your cooling system efficiency?
