

CORNING

# Smart buildings? Done that.

Welcome to our global HQ.

## **We don't just equip smart buildings. We built one of our own.**

Our headquarters combines beauty with brains. The wire-it-once, fiber-to-the-edge design enables wireless mobility, monitoring, IoT, and safety systems to deliver a world-class working environment. As a result, our future-ready network is ready to tackle whatever high-bandwidth demands are on the horizon, without missing a beat.

Take a virtual tour! Learn more as our experts explain how this smart network operates.
