# Cortex distills years of unused data.

## Meters

Bill and 15-minute interval electric and steam data at your fingertips.

## BMS

1,000+ data points collected every minute. Most of this data has previously gone unused.

## Weather

Historical, current and forecasted temperature, humidity, cloud cover, and minutes of sunlight.

“ We’ve already achieved significant financial benefit at 110 William through Cortex Intel’s platform, reducing annual operating costs by \$250,000, which translates into a property valuation increase of about \$5 million. ”

**Nick Bienstock**  
Managing Partner of Savanna

“ Seemingly small, individual decisions made every day in the management of an office building can multiply into a significant impact on the annual bottom line. With Cortex Intel we’ve been able to improve those decisions to achieve an annualized reduction in operating costs of over \$100,000. ”

## Built for mobile.

**Scott C. Alper**  
President and CIO of Witkoff Group
