

Envoy Connect

Streamline visitor management for multi-tenant buildings

Keep your buildings secure and exceed tenant expectations with a visitor management platform designed for property owners.

Centralize visitor management property-wide

Strike the perfect balance of security and experience by streamlining visitor registration in the main lobby.

Get a holistic view of who is on-site

Know who's expected at each suite, who they're visiting, when, and why.

Customize visitor experience for each tenants

Tenants can customize visitor emails, entry requirements, and notification settings to create the best experience.

Streamline building security with a master invite log

Manage physical access control

As tenants invite visitors on-site, property admins can manage each visitor's approval status and grant temporary access to designated areas.

Simplify visitor sign-in

A smooth check-in process and instant host notifications ensure welcoming arrivals and prompt greetings.

Plug in your existing tech stack

Integrate with the systems your building already uses for access control, block lists, background checks, and more.

Invite log Search invites or tenants by name

1-30 of 245 invites All invites All properties All time Export

<input type="checkbox"/>	Name	Expected arrival	Tenant name	Host name	Approval status
<input checked="" type="checkbox"/>	Elizabeth Stoufers	8:29am	Samsara	Emily Will	- Pending approval from tenant
<input type="checkbox"/>	Jack Mack	9:34am	BuzzFeed	Edie Garrison	✓ Access approved
<input type="checkbox"/>	Maggie Aquino	11:15am	BuzzFeed	Edie Garrison	✗ Access denied
<input type="checkbox"/>	Anish Purahit	1:15pm	Zoom	Jamie Mistl	✓ No match
<input type="checkbox"/>	Quinn Barnes	2:30pm	Stripe	Romaine Jani	✓ No match

How it works

Step 1: Tenants invite visitors via custom-branded emails.

Step 2: Security team sees a real-time log of all visitors expected in the building.

Step 3: As visitors check in with security, hosts receive instant notifications.

Step 4: Approved visitors scan QR codes at turnstiles or elevators.

Step 5: Hosts welcome visitors to their suite, where they complete check-in.

The ultimate multi-tenant visitor management platform

Cloud-based security console

Give main lobby security the tools they need to screen and check-in every guest.

Instant notifications

Notify tenants' hosts when their guests arrive via email, Slack, Teams, and more.

Easy implementation

Let tenants link their Envoy account to yours in just a few clicks.

Property analytics

Understand occupancy trends by tracking visitor foot traffic across all tenants.

Master visitor log

Maintain a digital record of all your property's visitors to ensure auditory compliance.

Property-wide blocklist

Safeguard your building by screening all visitors against a comprehensive block list.

Security integrations

Connect with external systems for access control, Wi-Fi, background checks, and more.

Real-time tenant invite sync

Know who's expected at each tenant suite with an up-to-date visitor log.
