

# Smart Building Control Made Easy

We work with any facility, any device and any system. Clarity™ removes the complexity of managing HVAC, lighting and IoT devices across many sites.

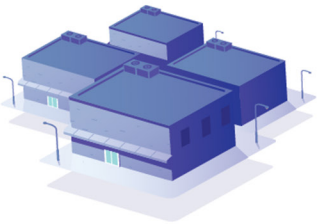

## CLARITY LABS

Hypothesis-driven testing approach to protocols, devices, APIs and integrations to create the optimal combination of hardware and software

## NATIONAL INSTALLS

Fast installation of hundreds to thousands of locations with minimal disruption to your business operations

## PILOT PROJECTS

Validate our Clarity Labs solution in a real-world configuration at one of your locations

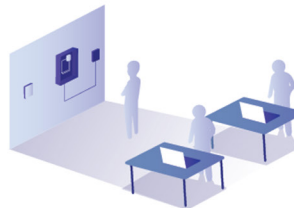

## ENTERPRISE APP

One enterprise console to manage and monitor your entire portfolio from any desktop, tablet or smartphone

## MONITOR & MAINTAIN

Prevent truck rolls by remotely troubleshooting and de-escalating issues with HVAC technicians, engineers and Clarity SMEs

## 24/7 SUPPORT

Dispatch trucks as needed during peak and non-peak hours to reduce maintenance spend
