Full Turnkey Deployments

HALO specializes in complete turnkey 5G DAS deployments with an industry leading in-house team of professionals which complete all aspects of design, installation, implementation, testing, Carrier integration, monitoring and maintenance, support and technology upgrades. Each network is designed to ensure maximum Carrier participation utilizing agnostic and scalable technology with an unobtrusive design.

LEADERSHIP, INNOVATION & RELIABILITY

- ✓ Trusted 5G DAS Partner with REITs, Developers & Owners
- ✓ Proven Success deploying the highest quality systems
- ✓ Carrier Preferred 5G DAS provider & System Integrator
- ✓ HALO installs only the highest quality OEM equipment
- ✓ C-Level Executive involvement
- ✓ Dedicated Project Director for entire term of DAS project
- ✓ 14 Years experience in DAS and Wireless Infrastructure

“HALO is dedicated to our long-term support and Client partnerships. We value the opportunity to deliver at the highest levels of quality, execution and service”

Tony Schaffer, HALO President
