

Transform workplace experiences and optimize your operations

The Intelligent Facilities solution from Hewlett-Packard Enterprise is a comprehensive, end-to-end Internet of Things (IoT) solution that bridges OT and IT helping to optimize space efficiency, automate and manage your buildings. The Intelligent Workplace solution (also from Hewlett-Packard Enterprise) elevates workforce productivity, improves talent retention and optimizes space efficiency by creating a dynamic workplace that blends digital tools with physical spaces. With both the Intelligent Facilities and Intelligent Workplace solutions you can connect employees to the new smarter digital building, generate actionable insights to inform better decisions and integrate your systems to drive cost savings.
