

More than 5,000 people want to give you inside information.

The InsideIQ Advantage The InsideIQ Building Automation Alliance represents leading innovators in building environments and energy services. Our member firms across North America, Europe and Australia are local experts representing common building automation, energy and security system platforms.

InsideIQ is the world's largest alliance of independent building automation contractors. We work every day to maximize each customer's investment while perfecting the inside working environment. Agile, adaptable, and cooperative, our locally-owned Member companies represent more than \$1 Billion in annual revenue and share best practices among more than 5,000 employees at locations worldwide.

InsideIQ members are experts in the design and implementation of:

- Building Automation Systems
- Systems Integration
- Cyber Security
- Facilities Maintenance Services
- Performance Contracting
- Process Control Systems
- Building Analytics
- Enterprise Security Systems
- Energy Services
