

MODO WORKPLACE™ FOR ENTERPRISE

Transform the workplace with a unified mobile experience that connects your intelligently built environment with the people that bring it to life. The platform integrates your digital workplace systems into a single trusted app, providing employees with personalized real-time resources they need to succeed.

Whether it's showcasing new amenities, maximizing space utilization through room booking and wayfinding, or coordinating an emergency response, empower employees with a comprehensive content and communications strategy. With MODO as your partner, activate an engaged workforce that will make your vision for the next generation workplace a reality.

Build Unified Experiences...

Create beautiful apps that uniquely reflect your brand and culture

Analyze user behaviors to intelligently optimize your app

Build personalized content and deploy instantly

Delegate across your company, from interns to executives

Communicate in real time to alert, inform, engage and motivate

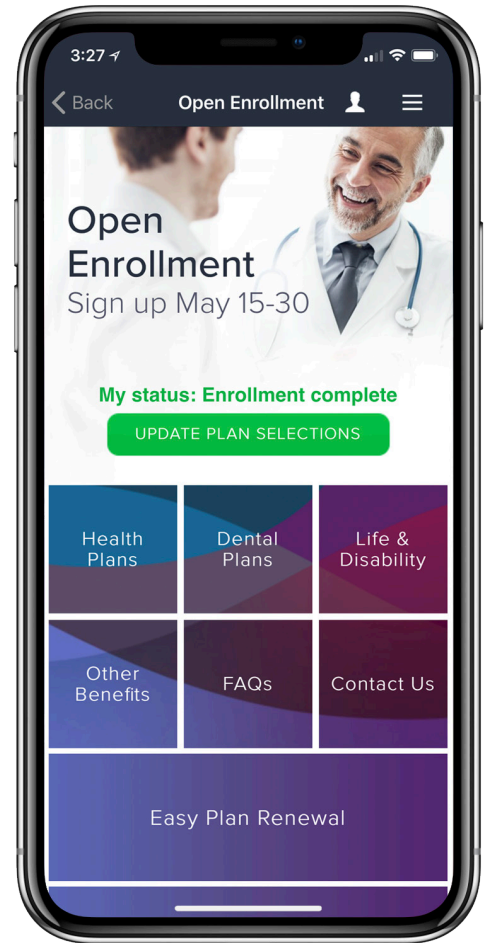

Manage all aspects of your app from an integrated console

Personalize content and alerts based on location, role and more

Integrate any data source to be projected in-app, in real-time

That Empower Success

Enhance efficiency and productivity by integrating essential features from multiple systems, including workplace management, HR systems, parking and transportation, and food ordering, into a single app.

Reach your employees anytime, anywhere with multi-channel communications that deliver everything from emergency broadcasts to targeted personal and opt-in messages.

Intelligently increase long-term value through advanced user behavior analytics and in-app surveys, creating a closed loop of employee feedback that drives continuous innovation.
