

Pereview is the first and only cloud-based *Life-of-the-Asset* solution built by and for real estate professionals. It supports all front office business functions and tracks all data from the fund to the lease. Before implementing Pereview, our clients would spend 300 to 400 hours each quarter on reporting. Pereview can decrease that total by up to 90 percent. Pereview clients are better prepared than their competitors to grow AUM without adding headcount.

Pereview Software by Saxony Partners

Pereview offers best-in-class dynamic reporting, Excel modeling, and disparate system integrations. Join the growing list of leading real estate firms who have made Pereview a partner in their growth strategy.

The Pereview Advantage

All of your info in one place

Save up to 90% of time spent doing repeatable reporting

Push-button internal and investor reporting

Easily track actuals to underwriting, to business plan

Grow AUM while keeping headcount steady

Integrate with core Excel models

Answer ad-hoc questions in seconds, not days

Supports all front office business processes

The Life-of-the-Asset

Pereview covers the entire life-of-the-asset, from acquisition to disposition.

Acquisition

Underwriting

Financing

Closing
