# At Proxet, we innovate, engineer, and transform your future

## Proxet Innovates

Proxet is a global full-service firm specializing in custom software development and digital transformation services. We deliver the personal touch of a boutique firm and the boundless innovation and business acumen of a large consultancy.

## Proxet Engineers

With our **Data & AI** solutions, we will build your custom data platform, help you make better decisions with your data, build omnichannel capabilities, and embed machine learning and AI into core capabilities. With our **Product Engineering** solutions, we help you stay competitive and differentiate your business by focusing on your product and service strategy and delivery.
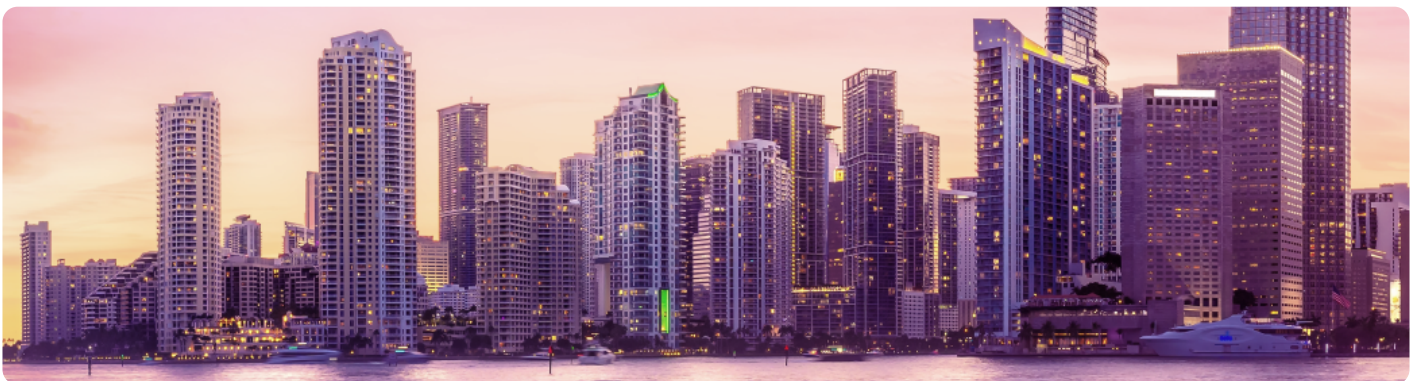

## Proxet Transforms

Everything we do is built on **Cloud** components, helping you modernize and secure your infrastructure. Our expert product and engineering **Managed Teams** deliver systems analysis and design, architecture, and engineering services, yielding return on investment and a shortened time-to-value.

## Your World

Our solutions can positively impact your operations from end-to-end, including staffing, space utilization, risk management, compliance, regulatory requirements, financials, and ESG concerns like carbon emissions and energy efficiency.

→ Our experience helping leading, tech-forward companies successfully implement **digital transformations** will help you leapfrog your peers.

→ Our team has expertise in the most advanced data platform technologies such as **Palantir**, **Databricks**, and **Snowflake**, and all the major real estate systems like **Yardi**, **MRI Software**, and **VTS**.
