

# Close Deals Faster with the Right Tenants Using the Right Data

Enhanced retail and restaurant recruiting with Geosocial data

## Data on the customers they care about

With over 70+ segments of real human behavior measured all across the country, reports describe customer profiles that connect directly to their brand.

## Data and reports available for every retailer, restaurant, and retail property in the U.S.

Compare your vacancies to their entire portfolio and any competitor location.

## Cutting edge data, proven to signal success

Geosocial data has been proven to increase retail and restaurant real estate success. Add value for your clients and close the right deals, *faster*.
