AI-POWERED VIDEO ANALYTICS FOR THE PROS

Vintra's video analytics solution, FulcrumAI, delivers real-time, total-environment intelligence from any camera source through on-premises deployments, and quick, accurate post-event search via the cloud option. Our cutting-edge AI works on footage from both fixed and mobile cameras, and integrates with popular video management and storage solutions. FulcrumAI augments human resources by enabling faster, better-informed responses to critical events through actionable, tailored and trusted intelligence.

REAL-TIME INTELLIGENCE

Set alerts & alarms for safelists, blocklists, boundary crossings, intrusions and more. FulcrumAI delivers total-environment awareness from any camera source and integrates with major VMS providers like Genetec.

POST-EVENT ANALYSIS

Improve investigations by 20x, repurpose thousands of man-hours, and collect video from the public with a click of the button. Powerful features include face identification, biometric, object, and attribute search capabilities.

CUSTOMIZED ANALYTICS

Customers can have customized analytics created through Vintra's Analytics Foundry. Our team of Ph.D.'s will engineer algorithms to fit your specific needs.

FACE RECOGNITION

Whether searching one-to-one or one-to-many, our face-rec has been built to work in challenging video scenarios, including mobile surveillance.

ANY VIDEO, MANY CODECS

Unlike legacy video analytics, FulcrumAI works on any type of video, from both fixed and mobile cameras, and nearly any codec.

REAL TIME, REAL RESULTS

Transform live-monitoring into smart-monitoring with FulcrumAI. Better alerts, alarms, and workflow management equal better results.

ADD AI TO ANY CAMERA

Vintra works with nearly any IP camera and integrates with popular video management systems like Genetec.
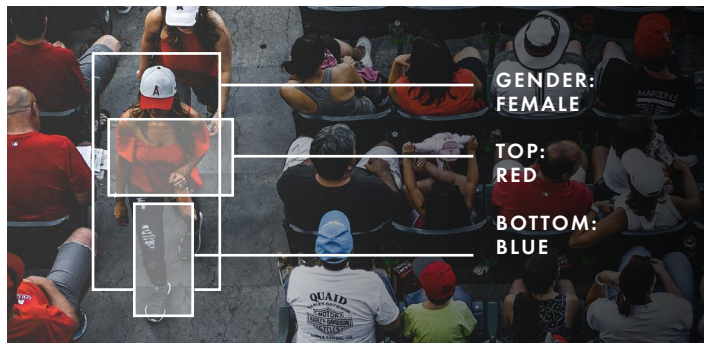

COLLECT VIDEO & SHARE RESULTS

Digitally collect and download video from the public with a click of the button. Easily share search results with colleagues and command staff using the reports feature.

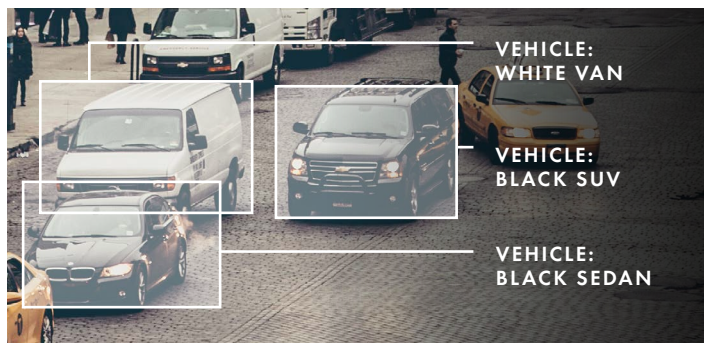

SUBJECT

WATCHLISTS

CREATE WATCHLISTS AND RECEIVE NOTIFICATIONS WHEN SUBJECTS APPEAR IN LIVE OR RECORDED VIDEO.

GENDER: FEMALE

TOP: RED

BOTTOM: BLUE

PERSON SEARCH

IDENTIFY PEOPLE, AND REFINE YOUR SEARCH BY COLOR OF CLOTHING AND GENDER.

VEHICLE: WHITE VAN

VEHICLE: BLACK SUV

VEHICLE: BLACK SEDAN

VEHICLE SEARCH

ADVANCED VEHICLE DETECTION ALLOWS YOU TO FIND VEHICLES BY SUBTYPE, COLOR, AND DIRECTION OF TRAVEL.
